

6 BENEFITS OF THE ZYTO

FOODS FOR WELLNESS SCAN

1

SCAN FOODS AS BALANCERS

Scanning for digital signatures of foods as balancers helps you focus on foods that will best assist you in reaching your wellness goals.

SCAN FOR MORE THAN 450 FOODS

Hundreds of digital signatures of foods are available to scan in several different categories, including vegetables, fruits, fats & oils, beans and legumes, and beverages.

2

3

SCAN FOODS AS STRESSORS

Scan for digital signatures of foods and related items that are considered stressors to the body, such as herbicides, GMO foods, food additives, and pesticides.

FILTER OUT FOODS BASED ON DIET

Selecting any diets you may be following before the bio-survey removes those items from scan results, making the reports more helpful and insightful.

4

5

GAIN KEY INSIGHTS FROM REPORTS

The 10 reports break down your top overall food Virtual Items, top food items by category, top non-coherent food items, and more to reveal key insights about your diet choices.

USE AS A SHOPPING LIST

Use your top food Virtual Items as a shopping list, and choose top foods from each category to add variety to your diet.
