BALANCER VIRTUAL ITEM RE-SCAN RESULTS

This section of the report shows your top balancer Virtual Items and how many out-of-range biomarkers each balancer progressively brought into range. Each balancer adds to the cumulative amount of biomarkers brought into range.

Baseline

Biomarkers Out of Range: 111

ABC - Revitalizing Sleep Formula

Biomarkers Brought Into Range: 51

Category: All ABC Products

Usage Directions: 2 Capsules 1 times per day

ABC - EyesAlive

Additional BioMarkers Brought Into Range: 22

Category: All ABC Products

Usage Directions: 3 Capsules 3 times per day

ABC - Sage Oil

Additional BioMarkers Brought Into Range: 18

Category: All ABC Products

ABC - Cassia Oil

Additional BioMarkers Brought Into Range: 7

Category: All ABC Products

ABC - Thyme Oil

Additional BioMarkers Brought Into Range: 4

Category: All ABC Products

ABC - Petitgrain Oil

Additional BioMarkers Brought Into Range: 5

Category: All ABC Products

ABC - Whole Food Energizer & Multi-Vitamin

Additional BioMarkers Brought Into Range: 3

Category: All ABC Products

Usage Directions: 3 Tablets 1 times per day

PRODUCT DESCRIPTIONS

Top balancer Virtual Items are listed in order below along with their respective dR values and detailed product descriptions.

18.88 **ABC - Revitalizing Sleep Formula**

2 Capsule(s) 1 times per day

This product will assist you with better sleep.

17.23 **ABC - EyesAlive**

3 Capsule(s) 3 times per day

State-of-the-art nourishment for the eyes

Features bilberry, patented lutein, and multiple carotenoids for ocular health

NEW IMPROVED formula with 4mg of OptiSharp zeaxanthin!

Don't let free radicals damage your eyes--fight back with EyesAlive! This powerful antioxidant formula features only all-natural ingredients from the most respected names in the industry, including FloraGLO and ZANTHIN. But it's not just the quality of the ingredients that sets this formula apart from the competition, it's also the quantity. Each two-capsule serving supplies an impressive 20 mg of lutein--twice what you'll find in other leading brands.

12.11 **ABC - Sage Oil**

Botanical Name

Salvia officinalis

Common Method of Extraction

Steam Distilled

Plant Part Typically Used

Leaves and Flowers/Buds

Color

Clear

Consistency

Thin

Perfumery Note

Top

Strength of Initial Aroma

Strong

Aromatic Description

Herbaceous, fruity, fresh, camphorous.

Sage Oil Uses

Fragrancing in very low dilutions.

<https://www.aromaweb.com/essential-oils/dalmatian-sage-oil.asp>

11.67 **ABC - Cassia Oil**

Resembling Cinnamon Bark Essential Oil in aroma, Cassia Essential Oil is sometimes used as an economical substitute within fragrancng applications.

It is my understanding that most of the "Ground Cinnamon" that we purchase in grocery stores, and even most of the "Cinnamon Sticks" that are sold are not true cinnamon, but are really its more affordable cousin, Cassia, Cinnamomum cassia.

Cassia Oil

When comparing the bark oils of both Cassia (Cinnamomum cassia) and Cinnamon (Cinnamomum zeylanicum), I personally prefer the richer, fuller aroma of Cinnamon Oil to that of Cassia Oil.

ZYTO[™]

Test Male - 4/14/2020

Page 4 of 16

The ZYTO Hand Cradle has been cleared by the FDA for the measurement of galvanic skin response. ZYTO software has not undergone FDA review for effectiveness. ZYTO technologies are not intended to be used in the diagnosis, cure, treatment, mitigation, or prevention of any disease or medical condition. The diagnosis and treatment of medical conditions should only be undertaken by qualified medical professionals. ZYTO professional software provides general wellness information and should not be used without the involvement of a licensed healthcare professional. ZYTO products have not been the subject of controlled clinical trials to establish their effectiveness and their use is not a generally accepted medical practice by the traditional medical establishment. If you have any questions regarding ZYTO technology or our products please contact us at info@zyto.com.

I have purchased sticks of both Cinnamomum cassia and Cinnamomum zeylanicum, and also prefer the aroma and flavor of Cinnamomum zeylanicum in bark form.

Typically, both Cassia Bark and Cinnamon Bark oils should be used with extreme caution, if at all. Refer to the Safety Information section below for more information.

Botanical Name
Cinnamomum cassia

Common Method of Extraction
Steam Distilled

Plant Part Typically Used
Bark

Color
Golden Yellow/Brown

Consistency
Medium

Perfumery Note
Middle

Strength of Initial Aroma
Sharp/Strong

Aromatic Description
Spicy, sweet, woody, earthy.

Cassia Oil Uses
Fragrancing, indigestion, gas, colic, diarrhea, rheumatism, cold/flu.

<https://www.aromaweb.com/essential-oils/cassia-oil.asp>

11.37 **ABC - Thyme Oil**

Historically, fresh and dried Thyme as well as the essential oil have been used to help ward off bacteria and viruses. Of the most commonly available Thyme Essential Oils, Thyme ct linalool tends to be amongst the most gentle and safe while Thyme ct thymol contains more thymol and can be a more potent antibacterial/antiviral oil.

Constituent and safety information varies depending on the specific chemotype of Thyme Oil used.

Some companies offer a "benchmark" Thyme Essential Oil that combines several thyme chemotypes. Benchmark Thyme Essential Oil is gaining attention for its potential in combating MRSA.

Botanical Name
Thymus vulgaris / Thymus zygis

Common Method of Extraction
Steam Distilled

Plant Part Typically Used
Leaves and Flowers/Buds

Color
Pale Yellow
(May Vary, Depending on Specific Botanical, Chemotype and Distillation)

Consistency

Medium and Slightly Oily

Perfumery Note

Middle

Strength of Initial Aroma

Medium - Strong

Aromatic Description

Fresh, medicinal, herbaceous.

Thyme Oil Uses: Within Aromatherapy vs MRSA, Maggie Tisserand identifies and discusses Thyme as one of the three key essential oils that have the potential to combat MRSA. Julia Lawless lists these as other uses for Thyme Oil: Arthritis, colds, cuts, dermatitis, flu, insect bites, laryngitis, lice, muscle aches, oily skin, poor circulation, scabies, sore throat.

<https://www.aromaweb.com/essential-oils/thyme-oil.asp>

11.27 ABC - Petitgrain Oil

Though steam distilled from the same botanical species as neroli and bitter orange, Petitgrain Essential Oil possesses its own characteristically unique aroma. Petitgrain Oil is distilled from the leaves and sometimes the twigs and branches of the tree whereas Neroli Essential Oil is distilled from the blossoms and Orange Essential Oil is typically cold pressed from the rinds of the fruits.

Because it is distilled from the leaves and sometimes also the twigs, it is less floral and less citrusy in fragrance than Neroli or Orange. It has a beautiful, fresh, woody aroma that blends well with citrus rind and floral oils. It's a joy to work with for aromatic blending.

Petitgrain Essential Oil that is from France is known as Petitgrain Bigarade Essential Oil. [Salvatore Battaglia, The Complete Guide to Aromatherapy (Australia: The Perfect Potion, 2003), 249.]

Emotionally, I find Petitgrain Oil to be uplifting, calming and balancing. I tend to include Petitgrain Oil in my inhalers intended to help ease anxiety and high stress situations. Like Lavender, Petitgrain Oil contains the calming ester linalyl acetate and the calming/anti-bacterial monoterpenol linalol.

Petitgrain Oil

Typically when the common name of an essential oil is simply listed as Petitgrain Essential Oil,, the oil is likely distilled from Citrus aurantium. However, it is important to doublecheck because steam distilled Combava Petitgrain, Citrus hystrix, and Clementine Petitgrain, Citrus clementia Essential Oils are also available from a few sources. The aromas of each definitely say "Petitgrain" when you smell them, but each definitely has its own lovely aroma and unique aromatic characteristics. The natural chemical composition of each oil also varies, and it appears that Petitgrain derived from Citrus aurantium is the most abundant in Linalyl acetate and linalol. The GC/MS reports that I've seen for both Combava Petitgrain and Clementine Petitgrain have been a bit conflicting, so I hesitate to suggest what the typical composition should be until I have more definitive information.

The aroma of Petitgrain Essential Oil is a wonderful addition to blends especially formulated for men (women love it too). Petitgrain is considered an aphrodisiac.

Botanical Name

Citrus aurantium

Common Method of Extraction

Steam Distilled

Plant Part Typically Used

Leaves and Twigs

Color

Clear with a Yellow Tinge

Consistency

Thin

Perfumery Note

Top

Strength of Initial Aroma

Medium

Aromatic Description

Fresh, woody, and slightly floral.

Petitgrain Oil Uses

Acne, fatigue, oily skin, stress.

10.88 **ABC - Whole Food Energizer & Multi-Vitamin**

3 Tablet(s) 1 times per day

An invigorating, whole spectrum multi-vitamin

Features aminos, fruits, vegetables, MycoDefense nutrients and more

Rapid-absorption capsules dissolve up to five-times quicker than other leading brands

Feel your best every day with ABC Whole Food Energizer! This advanced multi-nutrient formula combines a complete supply of essential vitamins and minerals with a full spectrum of amino acids, a super "green food" blend, NutriJuice fruit and vegetable blends, MycoDefense mushroom blend, natural omega-3 and omega-6 fatty acids, active enzymes, and a powerful citrus bioflavonoid complex for comprehensive, everyday nutritional support.

ORGAN BIOMARKERS

This graph shows your responses to Virtual Items for each of the organs indicated. Of most interest are the ones with the out-of-range values.

The information in this graph is from the current scan only and does not draw upon any historical data.

Urinary Bladder

12 . 66

VERTEBRAE BIOMARKERS

This graph shows your responses to Virtual Items for each of the vertebrae indicated. Of most interest are the ones with the out-of-range values.

The information in this graph is from the current scan only and does not draw upon any historical data.

TEETH BIOMARKERS

This graph shows your responses to Virtual Items for each of the teeth indicated. Of most interest are the ones with the out-of-range values.

The information in this graph is from the current scan only and does not draw upon any historical data.

TRADITIONAL CHINESE MEDICINE MERIDIAN BIOMARKERS

This graph shows your responses to Virtual Items for each TCM Meridian indicated. Of most interest are the ones with the out-of-range values.

The information in this graph is from the current scan only and does not draw upon any historical data.

Top service Virtual Items are listed in order below along with their respective dR values and detailed descriptions.

16.80 **Aroma Touch**

Aroma Touch Technique is a clinical approach to applying essential oils along energy meridians and visceral contact points of the back and feet to help balance sympathetic and parasympathetic nervous systems of the body.

13.39 **Activator**

The Activator Method Chiropractic Technique is a chiropractic treatment method and device created by Arlan Fuhr as an alternative to manual manipulation of the spine or extremity joints. The device is categorized as a mechanical force manual assisted (MFMA) instrument and is generally regarded as a gentler chiropractic treatment technique.

8.78 **Acupuncture**

Acupuncture is an alternative and complementary treatment based on Traditional Chinese Medicine (TCM), a system of healing that dates back over 2000 years. At the core of TCM is the notion that a type of life force, or energy, known as chi or qi (pronounced "chee") flows through energy pathways (meridians) in the body. Each meridian corresponds to one organ, or group of organs, that governs particular bodily functions. Achieving the proper flow of chi is thought to create health and wellness. To restore balance, an acupuncturist inserts very fine needles through the surface of the skin at points along the meridians, allowing your body's natural healing mechanisms to take over.

7.20 **Alpha Lipoic Acid Therapy**

Alpha-lipoic acid is a vitamin-like chemical that works as a powerful antioxidant. Good sources of alpha-lipoic acid include: yeast, liver, kidney, spinach, broccoli, and potatoes. Alpha-lipoic acid can also be made in the laboratory for medicinal use.

4.62 **Alpha Stim**

Get quick, sustainable relief from acute, chronic, and post-traumatic pain, while also treating other conditions often associated with pain (such as anxiety, depression, and insomnia).

OUT-OF-RANGE BIOMARKER PROGRESS CHART

This chart shows you the order in which the biomarker Virtual Items came into range and the product Virtual Items that influenced those changes. The biomarkers at the top of the left column are the ones that came into range last, indicating they are the most intractable.
